

**You may sit where you like!**

Choose a seat/group where you will be successful.

Sep 29-7:38 AM

**Warm-Up**

Solve the following equation for the variable.

$|m| = \#$

$$3 + |2x - 4| = 13$$

$$|2x - 4| = 10$$

$$\begin{array}{r}
 2x - 4 = -10 \\
 +4 \quad +4 \\
 \hline
 2x = -6 \\
 \frac{2x}{2} = \frac{-6}{2} \\
 \hline
 x = -3
 \end{array}
 \qquad
 \begin{array}{r}
 2x - 4 = 10 \\
 +4 \quad +4 \\
 \hline
 2x = 14 \\
 \frac{2x}{2} = \frac{14}{2} \\
 \hline
 x = 7
 \end{array}$$

Sep 29-7:40 AM

$$3 + |2x - 4| = 13$$
$$\cancel{3 + |2x - 4| = -13}$$

Sep 29-8:46 AM

### Review Day

Today we will be working in STATIONS. At each group of desks around the room, there will be material for each of the topics that will be covered on the table. At each station:

1. Check your answers with the answer key on the desk.
2. Rate your understanding based on ***your performance on the review sheet*** on a scale of 1 to 5.
3. With the remaining time at the station, complete the practice problems given or correct your paper.

Sep 29-7:43 AM
